Education

National College of Science and Technology (NCST) <i>Bachelor of Science in Computer Science (BSCS).</i> Relevant Coursework: Computer Networks, IT Support & Troubleshooting. Honors & Awards: Most Outstanding Undergraduate Research.	Dasmarinas, Cavite 2025
--	----------------------------

Experience

Nineveh Academy IT Support Intern (OJT)	General Trias, Cavite Feb 10 – Mar 14, 2025
- Set up and prepared new PCs, including operating system installation and required software such as Microsoft Office and Python. - Diagnosed and inspected computer hardware, including SSDs, HDDs, RAM, and motherboards. - Performed computer cleaning, maintenance, OS reinstallation, and basic hardware troubleshooting. - Backed up and transferred files from older computers before maintenance or OS installation. - Created, crimped, and tested LAN cables using RJ45 connectors and arranged network connections for computer laboratories. - Assisted with LAN cabling, router-to-PC connections, and computer deployment across classrooms and the library. - Installed and configured monitoring software to help administrators and teachers monitor computer activity. - Configured website restrictions to block inappropriate and gaming-related websites. - Helped prepare new computer laboratories and introduced completed setups to teachers.	

Certificates

Cisco Operating System basics. OS installation, configuration, and troubleshooting. Cisco Networking Basics. Networking concepts, setup, and troubleshooting. Cisco Hardware Basics. hardware setup, maintenance, and troubleshooting. Nineveh Academy Certificate of Training As IT Support. Convergent Technology ON2 Data Center Webinar.	Sept 2026 Sept 2026 Sept 2026 March 2025 January 2025
